## Saluting our many allied health talents on SingHealth Allied Health Community Day

with Health Minister Mr Khaw Boon Wan  
15 January, Raffles City Convention Centre

### SINGAPORE GENERAL HOSPITAL

#### SENIOR/DIETITIAN (REF: SGH/AH/0111/166)

You will provide Medical Nutrition Therapy (MNT) for patients who require specific nutrition intervention to augment their medical treatment. You will guide and mentor junior Dietitians/Food Service staff, train and educate students on clinical placements and participate in the teaching of healthcare professionals. You will also participate in research studies within the department or in collaboration with the medical team and review clinical care plans for the different clinical specialties.

#### Requirements

- Degree in Dietetics
- At least 4-6 years' relevant working experience preferably in a clinical setting with at least 2 years in a supervisory capacity

#### SENIOR/PRINCIPAL PHYSIOTHERAPIST (REF: SGH/AH/0111/167)

You will provide physiotherapy assessment and treatment to patients for optimal recovery in the following areas:

- Outpatient Musculoskeletal
- Inpatient Orthopaedics
- Cardiopulmonary
- Neurology
- Geriatric

You will lead a work group and take on its associated administrative and operational responsibilities. You will initiate quality improvements in clinical and service practice standards, providing constant review and development of the clinical service under your charge. You will coach, mentor junior staff and supervise students. You will also have opportunities to branch out into education and research.

#### Requirements

- Degree/Diploma in Physiotherapy
- At least 4-6 years' relevant working experience in a hospital or clinical setting with at least 1 year in one of the above specialisations
- Relevant postgraduate qualification(s) or equivalent would be an advantage

#### SENIOR/SPEECH THERAPIST (REF: SGH/AH/1210/161)

You will assess, diagnose and treat patients who are unable to speak effectively and who may also have swallowing difficulties. You will handle a varied mix of children and adults from ENT, Oncology, Neurology, Plastic Surgery, Respiratory Medicine and Paediatrics. You will also have some administrative responsibilities.

#### Requirements

- Master of Science in Speech Pathology (USA) with a Certificate of Clinical Competence or a Degree in Speech Pathology (or equivalent)
- At least 4-6 years' relevant clinical experience in a large acute hospital setting
- Interest and experience in clinical research is preferred
- A team player with excellent interpersonal and communication skills
