SINGAPORE GENERAL HOSPITAL
NURSE CLINICIAN (Specialty Care) (REF: SGH/NUR/0111/047)
You will assess, develop, implement and evaluate clinical practices and standards of care in a designated specialty. You are responsible for managing and providing specialised care to patients in your designated specialty, develop patient education materials and teach patients and their caregivers how to manage their conditions. You will also serve as a resource person for the Hospital in your specialty area, conduct research in your specialisation, and teach/mentor nurses.

The specialty areas include Stomatherapy, Geriatrics, Orthopaedics and Wound Management.

Requirements
• Bachelor's degree in Nursing
• At least 7 years’ clinical experience in an acute hospital care setting
• Post-basic Certificate/Advanced Diploma in a specialty area or equivalent
• Recognised nursing qualification and registered with the Singapore Nursing Board

NURSE EDUCATOR (REF: SGH/NUR/0111/048)
You are responsible for identifying, analysing, planning, implementing and evaluating the training activities of the Nursing Division to ensure effective delivery of training programmes to nurses and ancillary staff. You will develop and evaluate course curriculums, plan, conduct and evaluate teaching/ orientation programs, mentor/teach/students and serve as an educational resource for nurses.

Requirements
• Bachelor's degree in Nursing
• At least 7 years’ relevant working experience in an acute and hospital care setting, with 2-3 years teaching experience
• Post-basic Certificate/Advanced Diploma in a specialty area or equivalent
• Has undergone teaching methodology courses
• Recognised nursing qualification and registered with the Singapore Nursing Board

SENIOR STAFF NURSE (Nursing Informatics) (REF: SGH/NUR/0111/049)
You are responsible for planning, customising or developing information systems and technology that support and promote the field of nursing. You will investigate how to improve the delivery of healthcare services through the use of information systems and technologies, prepare, educate and provide technical support to nursing staff when a new information system is integrated into the healthcare workplace and serve as liaison between nursing and information technology staff.

Requirements
• Bachelor's degree in Nursing
• At least 7 years’ clinical experience in an acute and hospital care setting
• Post-basic Certificate/Advanced Diploma in a specialty area or equivalent
• Working knowledge of information systems and technology
• Recognised nursing qualification and registered with the Singapore Nursing Board

KK WOMEN’S AND CHILDREN’S HOSPITAL
NURSE MANAGER (KIFW) (REF: KKW/SAS-09/V-01/11/001)
You will lead a dynamic team in achieving both unit and organisational goals and will work closely with healthcare professionals to ensure the smooth operation of the clinic. You should be customer-focused with a strong desire to contribute towards building a strong and positive work culture. You are required to improve on the quality of patient care by identifying and implementing service improvement initiatives. You will also plan and organise training courses for staff to ensure that clinical/operational competency and skill levels are maintained at a satisfactory level.

Requirements
• Bachelor of Science in Nursing or equivalent with a Post-basic qualification
• Proactive team player and able to work independently
• Able to multi-task and work in a fast-paced interactive environment

SENIOR/STAFF NURSE (Paediatric Oncology) (REF: KKH/NSG-OTH-0111/004)
You will provide advanced nursing care to our paediatric oncology patients. Your duties include interpreting treatment protocols, setting up of infusion of chemotherapy drugs, accessing and de-accessing port-a-cath and blood taking via venesection. You are also required to provide patient education and support on the care of the patient upon discharge. You must possess a passion for paediatric oncology patients so as to provide holistic care to them and their families. You should also keep abreast of the latest advancements in paediatric oncology care.

Requirements
• Degree in Nursing
• Post-basic qualification (e.g. Post-basic Certificate/ Advanced Diploma in Nursing)
• At least 2 years’ relevant working experience as a Staff Nurse
• Possesses clinical knowledge and skills as well as formal or informal teaching skills
• A good team player

SENIOR/STAFF NURSE (Children’s Intensive Care Unit) (REF: KKH/NSG-OTH-0111/044)
You will provide advanced nursing care to children with serious, acute and complex ailments or trauma. You are required to respond rapidly to manage changes in critically ill children. You will handle patients with advanced technologies such as invasive/non-invasive ventilators and computerised monitoring system etc. You must be able to deal with human responses to life-threatening situations and provide holistic care to patients and their families.

Requirements
• Degree in Nursing
• Post-basic qualification in Paediatric or Critical Care course (e.g. Post-basic Certificate/Advanced Diploma in Nursing)
• At least 2 years’ relevant working experience as a Staff Nurse in Paediatrics or Paediatric Intensive Care
• Possesses clinical knowledge and skills as well as formal or informal teaching skills
• A good team player

As a nursing professional, I believe that the benefits of continuing education are manifold. While it equips younger generations with current skills, the healthy exchange between these nurses and the educators also helps to identify new areas of improvement, empowers everyone to achieve higher standards in practice and professionalism.

Paulin Koh, Deputy Director of Nursing, KK Women’s and Children’s Hospital
