8.30am to 12.30pm (Sunday)
Venue: KKH Auditorium (Training Centre), Level 1, Women’s Tower.

CME/CNE points will be awarded.

PATIENTS: AT THE HEART OF ALL WE DO.
Dear Friends and Colleagues,

On behalf of the organising committee, it gives me great pleasure to welcome you to KKH’s Obstetric Anaesthesia Symposium 2012, entitled “Setting Trends in Obstetric Anaesthesia”. The symposium will cover a wide range of topics, with special focus on the discussion of cutting edge advances made in the field of obstetric anaesthesia, along with revisiting familiar bread and butter topics.

We are privileged to have two world authorities in obstetric anaesthesia to grace our event. A/Prof Brendan Carvalho and Dr Roshan Fernando will be here to share with us their vast experience and research in obstetric anaesthesia and pain management. Our local teaching faculty consisting of experts from maternal-foetal medicine, perioperative medicine, pain management and obstetric medicine will share with us their insights into facilitating multidisciplinary management of obstetric patients. Problem-Based Learning Discussions will allow participants to have a chance at assessing their skills in diagnosis and management of clinical scenarios in obstetric patients.

We are extremely grateful to our sponsors for their commitment and generous support without which this meeting would not have been made possible. I would also like to thank my organising committee members who have done an outstanding job in making this symposium a success. To all our participants, thank you for your presence and enthusiasm.

I wish you all an edifying and enjoyable experience at the 2012 KK Hospital Obstetric Anaesthesia Symposium.

Dr Serene Leo
Chairperson of Obstetric Anaesthesia Symposium 2012
Consultant, Department of Women’s Anaesthesia
KK Women’s and Children’s Hospital
