

S3 CONFERENCE 2017

ASIA'S FIRST COLLABORATIVE SIMULATION CONFERENCE

31 October - 4 November 2017 | Academia, Singapore

PRE-CONFERENCE WORKSHOP

REFLECTION LEVELS IN DEBRIEFING

1 November 2017 | Wednesday | 0830 – 1130 | Academia, Level 2

ABOUT THE WORKSHOP

Debriefing is said to stimulate reflection after simulation. Studies show, however, that, when measured, there is less reflection than expected in many cases. Research points to the need to match the level of reflection to the concrete learning goals of a session.

The current workshop introduces participants to a published framework ⁽¹⁾ to measure reflection levels in debriefings. After understanding the system, participants will apply it to examples, where they try to "measure" the reflection, they hear in a conversation.

In a last step, will participants be introduced to possible questions that can help in controlling the level of reflection during debriefings and will try those questions with another set of examples in short role plays.

Participants will work to a large extend in small groups of 4 to 5 participants and faculty will rotate between these groups, assisting the learning process.

⁽¹⁾ Kihlgren, Spanager, & Dieckmann: Med Teach. 2015 May;37(5):437-43. doi: 10.3109/0142159X.2014.956054. Epub 2014 Sep 5.

LEARNING OBJECTIVES

At the end of the workshop, participants will be able to:

- Describe a system to measure reflection levels in debriefings.
- Being able to assess the reflection level realized in a conversation.
- Use questions and other interactions to control the level of reflections in debriefings.

FACULTY

Dr Peter DIECKMANN

PhD, Work and Organisational Psychologist (Dipl.-Psych.)
Copenhagen Academy for Medical Education and Simulation (CAMES),
Center for Human Resources, Capital Region of Denmark

Dr Elaine Tan

Consultant, Department of Emergency Medicine
Changi General Hospital

TARGET AUDIENCE

Simulation educators with basic or advanced experience in debriefings

FEES

SGD 107.00 (inclusive of GST)

For participants attending the S3 Conference 2017
