

PRE-CONFERENCE SYMPOSIUM

SINGHEALTH-MAYO SYMPOSIUM

23 Oct 2019 (Wed) | 8.00am – 12.00pm | Academia, L2-S3/4

ABOUT THE WORKSHOP

Don't miss out on the first ever SingHealth-Mayo Symposium that brings together world-renowned experts to discuss the latest trends and controversies in the musculoskeletal sciences via mini-lectures and interactive platforms. The symposium is jointly organised by the Mayo Clinic Orthopaedic Surgery Department and SingHealth Duke-NUS Musculoskeletal Sciences Academic Clinical Programme.

LEARNING OBJECTIVES

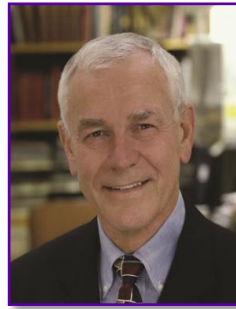

Participants will:

- Be updated in the latest trends and controversies of arthroplasty in the extremities
- Apply innovation and simulation in orthopaedic and musculoskeletal surgical training
- Understand changing priorities, opportunities and challenges in musculoskeletal research

TARGET AUDIENCE

Healthcare Professionals involved in clinical and academic activities in the musculoskeletal disciplines.
