

# SingHealth Duke-NUS Surgical & Anaesthesia Congress 2019

## Incorporating the inaugural SingHealth Duke-NUS Transplant Centre Symposium

### GLOBAL SURGERY, GLOBAL PARTNERSHIPS

14 - 24 September 2019 | Academia, SGH Campus

## Pelvic Floor Disorders Cadaveric Workshop

**Asst Prof. Cherylin Fu Wan Pei**  
MBBS, MMed (Surg), FRCSEd  
Course Director  
Senior Consultant

*Department of Colorectal Surgery  
Director, Pelvic Floor Disorders Service  
Singapore General Hospital*

**A/Prof. Andrew RL Stevenson MBBS,  
FRACS, FASCRS**  
Overseas Visiting Expert

*A/Professor University of Queensland  
Past Director Colorectal Surgery,  
Royal Brisbane Hospital  
Past Chair,  
ANZ Training Board Colorectal Surgery  
Australian Colorectal Endosurgery*

### Topics Covered

#### 1. Lectures

- Indications for Sacral Neuromodulation
- Technique of lead and implant placement for SNM

#### 2. Cadaveric SNM workshop (4 cadaver stations)

#### 3. Lectures:

- Technical Aspects of Laparoscopic Ventral Rectopexy

#### 4. Cadaveric LVR workshop (7 cadaver stations)

17 September 2019, Tuesday | 8.30am – 5pm

Singapore General Hospital, Academia  
Level 2, Seminar Room L2-S1  
Level Basement 1, Procedural Skills Lab 1A

#### Registration Fees:

\$500 (Trainee)

\$700 (Specialist)

\$200 (Observer)

**Includes registration to Main Congress**

*Maximum 21 participants for hands-on workshop and  
7 participants for observers*

*\*Prices subject to 7% goods and services tax.*

### Introduction

Pelvic Floor Disorders are a common but often unrecognised surgical problem. Appropriate treatment of such functional problems can immensely improve the quality of life of afflicted patients so that they need not suffer in silence. With a growing interest in this area in the ASEAN region, many surgical units are in the process of setting up their own Pelvic Floor Service and developing related skills.

### Target Audience

This workshop is targeted at experienced colorectal surgeons or advanced surgical trainees with a pelvic floor interest.

### Course Objectives

This hands-on cadaveric Pelvic Floor Workshop will be the first of its kind in the region. The aim is to introduce and teach the techniques of two common operations in dealing with pelvic floor disorders – namely: Sacral Neuromodulation (SNM) and Laparoscopic Ventral Rectopexy (LVR).
