

EXECUTIVE CERTIFICATE PROGRAMME IN CLINICAL GENOMICS

28 TO 30 AUGUST 2024 &
16 TO 17 SEPTEMBER 2024

8.30AM TO 5.30PM

ACADEMIA, SGH CAMPUS

\$5,400 (BEFORE GST)

**Eligible participants will be able to tap on the SkillsFuture Singapore (SSG) Funding Scheme
For more information, visit <https://for.sg/sdgm>*

Physicians, nurses, allied health professionals & life science graduates with an interest in clinical genomics

Register Here

<https://for.sg/applicationportal>

Objectives

To meet the anticipated demand for genetic counselling in various clinical domains, this programme aims to equip individuals with a deeper understanding of clinical genomics and genetic counselling skills by providing structured training in Clinical Genomics. Integrating theoretical and practical aspects of genetic counselling, individuals will have the opportunity to experience genetic counselling by role-playing with simulated patients.

Modules

GMS5501 - Basics in Genetics & Genetic Testing

GMS5502 - Application of Clinical Genetics

GMS5503 - The Role & Application of Genetic Counselling

GMS5504 - The Application & Use of Genetic Counselling: A Practical Approach

Sponsorship

Precision Health Research, Singapore (PRECISE) is partnering with SingHealth Duke-NUS Genomic Medicine Centre to offer sponsorship for the full course fees for selected participants (Singaporeans only). For individuals seeking sponsorship, please download the application form below to register instead of the QR code above.
