GPCME WEBINAR

SUPPORTING YOUR AMD PATIENT IN THE PRIMARY CARE SETTING

Presented by the Medical Retina Department,
Singapore National Eye Centre

2 NOVEMBER 2022

WEDNESDAY

1PM - 2PM

www.snec.com.sg

PROGRAMME

Age-related Macular Degeneration is the leading cause of central vision loss in older adults. The ability to recognise the early signs of this disease is critical as timely treatment can help slow down the progression of the condition. Pick-up some tips from our faculty on how to identify these signs and how you can go about helping your patients cope with vision loss.

- **Welcome Address**
Gemmy Cheung
- **Distorted Vision and Wavy Lines - Can It Result in Blindness?**
Shaun Sim
- **What Are the Current and Upcoming Therapies for AMD?**
Kelvin Teo
- **How Can I Help My Patients Cope with Vision Loss from AMD?**
Anna Tan
- **Question and Answer**
