GPCME WEBINAR

What a GP Needs to Know About the Most Current Refractive Surgery Techniques

LASIK | Surface Ablation |
Refractive Lenticule Extraction |
Phakic Intraocular Lens

Presented by the Refractive Surgery Department,
Singapore National Eye Centre

15 August 2022
Monday
1pm – 2pm

www.snec.com.sg

Programme Outline

Refractive error is a common vision disorder that hampers a person's ability to see clearly. Refractive surgery can help to improve vision and reduce dependency on glasses and contact lenses. Learn from our faculty what the different types of refractive errors are, surgical options available and when you should refer to an ophthalmologist for further evaluation.

Programme

- **Welcome Address**
Mohamad Rosman
- **Refractive Errors: What They Are, What Are the Causes, and Can They Be Corrected Through Refractive Surgery?**
