## WHO WE ARE AND OUR STORY

Care Line is a 24-hour personal telecare service provided by Changi General Hospital (CGH) to support seniors in the community.

CareLine was set up in 2016. Currently, we have registered more than 3,000 clients. CareLine has a wide network of partners such as SGO, CNS and VWOs.

Recognising that an elder's needs are diverse, Care Line has built a strong network and resource that allows us to easily link and coordinate care, in the best interest of our seniors.

We have a professional team of Client Service Associates trained and supported by experts in social and healthcare expertise.
